

# Friends of Horses

Complete four activities.

1. Make a booklet with pages showing the tools for grooming a horse. Draw pictures of the tools and name at least three. Name at least two parts of a saddle and a bridle; draw pictures and include them in your booklet.
2. Name 10 principal body parts of a horse. Use a library book to help you.
3. Go to a stable, horse show, or farm and see how horses are groomed and cleaned before riding or working. While there, help clean saddles, bridles, and the barn area.
4. Cut pictures out of magazines and newspapers to make a collage of horses.
5. Discuss making a donation to your local SPCA to go toward hay for their horses or donkeys. Vote to donate money from troop funds.
6. Have someone talk to your troop about the way horses helped in developing our country (transportation, farming, communication, and sport).
