

“LET’S BE HORSE FRIENDLY”
A TRY-IT FOR BROWNIE GIRL SCOUTS

Do four activities to complete this Brownie Try-It.

1. Visit a horse stable, a horse show or a farm and see how horses are groomed and cared for. Help to some of these chores such as cleaning saddles and bridles. Also, help to clean a stall area.
2. Name 10 principle body parts of the horse. Use a library book to help you. Make a poster using this information
3. Make a booklet about horses. Show the different tools used to groom a horse. You may draw pictures of these tools or use a magazine to find pictures. Make sure to name these tools and then tell how they are used to groom a horse. Name at least two parts of a saddle and bridle. Draw pictures and label them.
4. Make a collage of horses by cutting pictures from a magazine.
5. Invite someone to talk to your troop about horses. It can be someone who has knowledge about the history of horses or it might be someone who owns a horse or horses.
6. Learn about three different breeds of horses. How are they different? What is alike about them? How are they used today? How were they used long ago?

Developed by:

Girl Scouts of San Gorgonio Council

We especially thank the Girl Scouts of Virginia Skyline Council and their Friends of Horses Try-It for giving us the idea to create our own version.
