

Nurse Try It

1. Learn about the founder of nursing, Florence Nightingale.
2. Talk to three nurses and find out what they do and why they like being a nurse. Share what you learned with your troop.
3. Participate in a health education class at school or in your community. Share what you learned with your troop.
4. Nurses specialize in caring for people who need help. Demonstrate a caring behavior at home or at school for a week. Tell your troop what you did.
5. Use a stethoscope to listen to your heart and a partner's lungs. Describe what you hear.
6. Make a list of all the places that you think a nurse can work. Where have you seen nurses working?
